Materials needed:
FILE FOLDER, PAPER, PENCIL/PEN
Drinks and snacks provided

** Medical information, if necessary.
Must accompany this application

Parents and Students,

Our goal in this three day workshop is to prepare students for the coming school year by EASING into academic rigor and reinforcing skills that will be used as the school year begins. Art, chemistry, and language are also offered as new and full programs for individual interest and need.

Students will be grouped according to grade level and will rotate into classes specific to that level. Teachers prepare the curriculum accordingly with grade-appropriate materials. Our faculty is experienced in these levels and would enjoy having your student in class.

Who would benefit from this exercise?
ANY STUDENT who seeks an advantage to begin the school year with useful study and performance skills WILL BENEFIT. Students who want to explore their creative side, or enhance their skills in science and language will enjoy the seminars. The atmosphere is relaxed with opportunity to socialize. Breaks are scheduled for convenience. Sounds workable? Yes it is!

Coed Environment
PUBLIC OR PRIVATE SCHOOL
The atmosphere is CASUAL but the goal is to refocus after summer's hypnotic spell. . Prepare for being a jump ahead, for starting strong, and for meeting new friends.

Revision and Editing
Mechanics/Punctuation
Creative Expression

MATHEMATICS

Algebraic Expressions
Absolute Value
Introduction to Problem Solving

9TH GRADE:

ENGLISH

Learning and Teaching Styles
Test -Taking Strategies
Active Reading Practice
Creative Writing Session

MATHEMATICS

Concepts for Algebra
Logic and Problem Solving
Technology for Science

BIOLOGY

General Biology Concepts
Use of the Microscope
Pond ecology and Ecosystems

**JUMP START
Nine Hour Seminars**

CHEMISTRY FOR 10 TH GRADE

First experience in a mathematical
and quantitative lab class

OBJECTIVES:

Reading a science test
Applying a mathematical model
Preparing a formal lab report

STUDENT PRODUCTS:

Scientific note taking
Performing an experiment
Preparing a report
Solving a problem
Orally presenting a topic

ART and the IMAGINATION

5th -9th Grades

Try something new! -

Charge the Brain

CERAMICS

SCULPTURE

DIGITAL MEDIA

Try Sketch Book, tool for Visual Art

¡Bienvenidos!

Speak Spanish Without Fear

7th - 9th Grades

Jump Start the conversation

Training your ear

Use G-cast - cell phone recording

Commonly Used Expressions
